TRICHO GEL BENEFITS

TRICHO GEL

- Glycine-Histidine-Lysine, Biotinyl GHK- Strength of hair, better anchorage to scalp tissue, signal for continuing active hair growth
- Oleanolic acid- Inhibition of 5 α – reductase
- Apigenin- Improves scalp perfusion, blood flow
- Keravis- Hair shaft protection, strength, prevents damage and repairs damaged hair. Repairs damage from handling, tangles, dust, grime, bending, hair fatigue
- Glycerine-Lactitol-Xylitol - Moisturizer, pH balance and maintains healthy scalp micro flora creating essential proteolipid layer. Restores damage from water quality, hot showers, chlorine, over shampoo, dryer, pollution, air conditioning, hair products, colors etc.

MEDICAL ADVANTAGES OF TRICHO GEL.....

- Instead of the conventional way of studying falling hair to treat hair loss, Tricho Gel has been designed to promote hair growth by studying good growing hair follicles and the signals that promote good hair growth.
- A study of the extra cellular matrix around a good growing hair follicle revealed repeating peptide complex of Glycine-Histidine-Lysine, GHK, which signal cell division and active hair growth.
- GHK also improves the strength and anchorage of the hair to the scalp connective tissue.
- Tricho Gel contains this GHK complex combined with Biotin to form Biotinyl GHK to accelerate and maintain active hair growth.
- Tricho Gel also aims at inhibition of 5 α – reductase with Oleanolic acid.
- Improving blood flow with the use of Apigenin in the formulation.
- Thus providing a three prong approach to the overall correction of hair loss and promoting new hair growth in men and women.

HAIR SHAFT STRENGTH & REPAIR BENEFITS.....

- Tricho Gel has unique Keravis which provides a lubricant protective film over the hair shaft preventing flexaberation from handling & tangles.
- Keravis penetrates the cuticle to add tensile strength to the hair shaft, protecting against hair breakage, bending and hair fatigue.
- Keravis ensures repair of damaged hair.
- Keravis in a comparative is more effective than D-Pantenol and conditioners.
