

The Science of Hair Growth

OVER 2 DECADES
OF RESEARCH AND
DEVELOPMENT

LASER PHOTOTHERAPY
TECHNOLOGY
FOR HAIR GROWTH

HairMax Laser devices deliver gentle, nourishing laser light to your hair follicles which stimulates cellular energy production to create a healthier environment for hair growth. This boost of laser light encourages more blood flow to the follicle, bringing in more oxygen and nutrients, activating antioxidant defenses, and speeding up the elimination of waste products such as DHT. HairMax laser light treatments help restore your hair's natural growth cycle resulting in new hair growth with increased density, fullness, and vibrancy.

- CLINICALLY PROVEN
- FDA CLEARED*
- DOCTOR RECOMMENDED

*The HairMax devices are indicated to treat Androgenetic Alopecia, and promote hair growth in **males** who have Norwood Hamilton Classifications of IIa to V and in **females** who have Ludwig (Savin) I-4, II-1, II-2, or frontal patterns of hair loss and who both have Fitzpatrick Skin Types I to IV.
